

Action Family

for every generation

Action® 5

- Extremely compact when folded with a unique H-shaped folding mechanism and backrest that folds directly onto the seat.
- Step-less adjustments that can be made whilst the individual remains in the chair.
- For the more active individual looking for an affordable chair with good driving performance.

Action® 4 NG

- Particularly suitable for taller or heavier people.
- Offers total flexibility with Transit, Self-propel and Heavy Duty versions.
- Simple handling and folding makes for great ease of transport.

Action® 3 NG

- For everyday use with a proven track record for quality and durability.
- Accommodates progressive changes in individual needs.
- Easily transportable with a smooth folding process and lightweight components.

Action® 2 NG

- The simplest model available in Transit or Self-propel.
- Meets basic needs whilst maintaining safety and comfort.
- Easy to handle with a stable folding frame.

New Action® 3 Junior

- Designed for growing children from 3-15 years old.
- Multiple adjustments and accessories available.
- A lightweight, foldable, paediatric chair.

The Total Solution

For more than a decade, the Action® family of chairs has been a symbol of quality, reliability and exceptional performance.

All chairs in the Action range are compatible with other Invacare products. A great aspect of their cross compatibility is that a vast amount of the range can be fitted with different seating and positioning options to make the chairs even more configured to individual needs.
